

# ICT4D Non-Conference 2020 Demos

We invite submissions of proposals for demonstrations at the ICT4D Non-Conference. These provide researchers and practitioners with a venue for showcasing live demonstrations of their work, which may include novel hardware or software systems, video footage, physical artefacts, or any other relevant ICT4D activity. Accepted demo presenters will be able to share their work through dedicated sessions on each day of the conference.

---

## Key dates

- **15th March 2020** – Submission of demo proposals (see below)
- **March-April 2020** – Peer review and selection of demos
- **15th April 2020** – Decisions on demo acceptance.

---

## Demo information

Those wishing to submit a demo proposal should send a one A4-sized abstract (preferred .pdf format) to [team@ict4d2020.org](mailto:team@ict4d2020.org) by 15th March 2020, which should include:

- Title of demo
- Name(s) of proposer
- Affiliation(s) of proposer
- E-mail address for contact
- Brief description of the demo
- The context in which the demo was developed
- How it contributes to the use of ICTs for development
- What is novel about it
- The infrastructure that would be necessary to be able to give the demonstration during the ICT4D Non-Conference
- Willingness to provide a formal risk assessment should the demo be accepted.

---

## Further information

Should any further information be required, please contact [team@ict4d2020.org](mailto:team@ict4d2020.org) as soon as possible.
